

FLAGSHIP COLLABORATIVE PLAY PLACE

Flagship Collaborative Play Place is a playground in Port Clinton, the first inclusive playground in Ohio. This park was built to be accessible and inclusive to all able and disabled bodies. Right when you pull into the parking lot, there are five accessible parking spots. A paved sidewalk from the parking lot leads into the playground. The playground has a rubber surface, making it easy to maneuver around with a wheelchair. All the elevated play surfaces have ramps, allowing people in wheelchairs to get to them. The ramps are 42” wide, which meets ADA standards. There are also great options for sensory play, including lots of different textures to touch and step on, along with multiple interactive panels with which to play. Overall, this fantastic, inclusive playground offers fun activities for all children.
